

Ranger Security Division — Enemy Sighting Log

(Sector 7G)

Incident Summary

At 0430 hours, surveillance drones detected unknown bio-mechanical signatures near Angel Grove Ridge. Thermal scans suggest the presence of at least three hostiles. Identity unknown.

Visual Analysis

Drones captured distorted silhouettes resembling humanoid constructs. Energy readings match no previously catalogued enemy class. Possible new antagonist faction.

Response Plan

Red and Blue Rangers assigned to recon sweep. Drone network placed on heightened alert. Recommend monitoring for dimensional rift spikes.
